

## Fernbank Science Center

**Title:** Exceptional Education Animal Experience

**Level:** K-12 Exceptional Education

**Location:** Main Building

**Type:** Single Visit

**Length:** 60 minutes

**Limit:** 2 classes

### **Program Description**

In this hands-on program students will engage with live animals from Fernbank Science Center's reptile collection. They will learn about the different characteristics and adaptations of the animals and will have the opportunity to interact with the animals. The Fernbank instructors will collaborate with the classroom instructor to adapt this experience into an appropriate engaging science activity for the predetermined standard(s).

### **Standards**

Appropriate standards will be determined during instructor collaboration.

### **Vocabulary**

Appropriate vocabulary will be determined during instructor collaboration.

### **Pre-Visit Activities**

Pre-visit activities will be planned collaboratively by the Fernbank and local schools instructors.

### **Post-Visit Activities**

Post-visit activities will be planned collaboratively by the Fernbank and local schools instructors.
